PROFESSIONAL SUMMARY

Program and operations manager with a multilingual, international-affairs foundation, currently managing scholarly publishing, mentorship, and fellowship programs at a 4,000+ member research society. Four years of progressive ownership across concurrent programs: sole operator for the *Early Career Interdisciplinary Scholars Fellowship (ECISF) Program* (three cohorts), co-lead for the Jacobs Foundation–funded *LEARN mentorship program* (Ghana and Colombia; \$100,000 CHF; 18 scholars, 25 mentors), publications operations across four journals through the full Wiley-to-Oxford University Press transition, and program architect for the Robert Wood Johnson Foundation-funded *Language-Sensitive Review (LSR) Pathway* — a structural equity intervention in scholarly peer review designed and launched in partnership with Oxford University Press. Co-author of SRCD's organizational Generative AI Policy. Member-facing programming reached 4,496 attendees from 63 countries at SRCD's 2025 Biennial. Working languages: English, Spanish, French, Portuguese.

EXPERIENCE

Society for Research in Child Development (SRCD)

Washington, D.C.

Science and Publications Programs Specialist

May 2024 - Present (2026)

- **Sole program manager for the *Early Career Interdisciplinary Scholars Fellowship (ECISF) Program***, a program re-established in 2023 and independently delivered across three cohorts (7 fellows in 2023; 6 in 2025; 6 in 2026). Own recruitment, onboarding, mentor matching, programming design, communications, and on-site delivery for fellows from medicine, law, linguistics, and allied disciplines, in partnership with the SRCD Interdisciplinary Committee as substantive leads.
- **Program lead for the *LEARN Mentorship Program***, a \$100,000 CHF Jacobs Foundation–funded initiative pairing 18 early-career researchers in Ghana and Colombia with 25 international mentors (15 methodological, 10 peer review) in partnership with NYU, ISSBD, Reviewer Zero, Universidad de los Andes, and the University of Cape Coast. Delivered mentor recruitment and onboarding, three country-specific Peer Review 101 seminars, and a Scholars–Mentors Networking Session; currently scoping three asynchronous professional development courses (conference proposals, journal publication, collaboration and partnerships) via instructional-design RFP.
- **Designed and launched the *Language-Sensitive Review (LSR) Pathway***, a Robert Wood Johnson Foundation-funded pre-review equity intervention for Spanish- and Chinese-speaking researchers submitting to *Child Development* and *Child Development Perspectives*. Architected the full program from grant to implementation: authored the project charter, led ScholarOne workflow configuration with Oxford University Press, recruited and tiered a 35-member bilingual reviewer pool, and developed member-facing communications, survey instruments, and editorial onboarding materials. Piloted in partnership with OUP's submissions systems team as a novel workflow configuration inside ScholarOne's editor-side infrastructure.
- **Co-developed SRCD's Generative AI Policy** (adopted August 2024), establishing organizational standards for responsible AI use across research, publications, and programs. Organized the Interdisciplinary Committee webinar “*Is Technology Good or Bad for Child Development?*” (300+ registrants, September 2024) and the Advancing Research on AI and Child Development interactive discussion (April 2026), positioning SRCD as a convener on AI in developmental science.

- **Support publications operations for four scholarly journals** (*Child Development*, *Child Development Perspectives*, *Monographs*, and *Child Policy Nexus* — rebranded from *Social Policy Report*) through SRCD’s full publisher transition from Wiley to Oxford University Press. 2025 output included 147 articles in *Child Development* alone (+7% YoY, against a 36% submission surge to 1,741 manuscripts), coordinated across five editorial teams, a new co-editor model, and the CPN rebrand and OUP platform launch.
- **Organize SRCD’s committee-driven international and interdisciplinary programming**, including three 2024–2026 webinars on AI, technology, and QuantCrit research methods; the Global Developmental Science Networking Event (~50 attendees at the 2025 Biennial, up from a small business meeting in 2023); and staff-liaison support for the International Affairs, Interdisciplinary, Ethnic & Racial Issues, and Publications Committees — translating committee vision into executed programs, minutes, and published outputs.
- **Expand SRCD’s international member engagement and accessibility**, including website translation into ten languages (Arabic, Simplified and Traditional Chinese, French, German, Japanese, Korean, Brazilian Portuguese, Spanish, and Turkish), and global scholar support programming developed in coordination with the International Affairs Committee.
- **Architect and ongoing administrator of SRCD’s organization-wide Asana implementation**, leading staff training, building cross-team project structures, and serving as the internal subject-matter lead nearly three years after initial adoption.

Science and Publications Programs Associate

May 2023 - May 2024

- **Staff liaison to the Anti-Racism Task Force** and core staff-team member for the inaugural SRCD Anti-Racist Developmental Science Summit (Panama City, 2024), coordinating task-force meetings, publishing outputs, organizing Summit sessions, and supporting on-site operations across the Invited Program and Local Flavor sub-committees. Funders and partners included the Bezos Family Foundation, Robert Wood Johnson Foundation, W.K. Kellogg Foundation, and the William T. Grant Foundation.
- **Facilitated the SRCD Anti-Racism Task Force**, supporting the development, review, and publication of the SRCD Anti-Racism Principles — a foundational document shaping ethical and inclusive science practices across the organization.
- **Led SRCD’s organization-wide Asana adoption**, delivering staff training and building the initial project infrastructure now used across all teams.

Science and Publications Associate

May 2022 - May 2023

- Delivered preparatory and on-site operations for SRCD Biennial 2023, supporting awards ceremonies, poster sessions, registration, and cross-team event execution.

The George Washington University School of Business (GWSB)

Washington, D.C.

Senior Operations Assistant, Office of Graduate Admissions

January 2021 - January 2022

- Streamlined international applicant compliance using Salesforce and Asana, standardizing workflows for graduate admissions processing.

EDUCATION

B.A. in International Affairs, Concentration in International Development | Minor in Linguistics
The George Washington University, Elliott School of International Affairs | Graduated 2022

CERTIFICATIONS

Certified Associate in Project Management (CAPM) | PROJECT MANAGEMENT INSTITUTE (PMI)

Certificate in Teaching English to Speakers of Other Languages (120-hr. TESOL) | ITTT

Certificate in Teaching English to Young Learners (50-hr. CTEYL) | ITTT

SKILLS & EXPERTISE

Program & Project Management: Global program leadership, fellowship and mentorship program design, sole-owner program delivery, grant-funded program management, cross-functional and cross-institutional partnership management, strategic planning, event and conference management, stakeholder engagement

Instructional Design & Learning: Curriculum scoping, asynchronous course development, instructional-design RFP development and vendor management, TESOL methodology, mentor training program design, LMS platforms

AI Governance & Policy: Generative AI policy development, responsible AI use in research and publishing, AI-in-research convening and programming

International Development & Education: Multilingual program delivery, cross-cultural research partnerships, capacity-building in Majority World contexts, research dissemination, policy communication, cross-cultural communication

Tools: Asana (organization-wide lead), Salesforce, ScholarOne, OpenWater, Oxford/OUP editorial platforms, MS Office/Teams, Google Workspace, Canva, Adobe Creative Suite, WordPress, Zoom, SurveyMonkey

Languages: English (native); Spanish, French, Portuguese (professional working proficiency); Arabic (developing)
